Course Syllabus CHEM 108 - General Lab Chemistry for

Below you will find my initial comments (there will likely be more after some reflection) and draft answers to the 2014 Free Response questions that were released by the College Board earlier today. As ever, these are in draft form and I would be happy to receive comments and corrections. General comments Based upon the [â€“]

2014 Released Free Response Comments & (draft) Answers

Refractory metals are a class of metals that are extraordinarily resistant to heat and wear. The expression is mostly used in the context of materials science, metallurgy and engineering.

Refractory metals - Wikipedia

I've written in schoolmarmish tones before about how pKa is one of the most important measures you can learn in organic chemistry, and not knowing some basic pKa values before an exam is a lot like walking up to a poker table without knowing the values of the hands: you're going to lose your shirt.
